

PLACEME  UK

The New Generation Recruitment People

INTRODUCTION

PlaceMe UK has candidate attraction at its core, making us a sound choice if your aim is to have the best people delivering your care. As healthcare recruiters, we believe that your people are your greatest asset and that's the reason why we take the time to get to know our candidates before we Place them with you. Using unique talent pipelines and the latest in technology, we've found that the best candidates partner with us, meaning that we can offer a tailored, fully-compliant, service to you. Our healthcare recruitment consultants have years of experience assisting healthcare brands just like you and together, we deliver a service that is 24/7. Call PlaceMe UK Health today and see how we can help you.

OUR SERVICES

PlaceMe UK works with healthcare professionals including:

- Doctors
- Nurses
- Allied Health Professionals
- Care and Support Workers

To deliver

- Bank Staff
- Emergency cover
- Permanent People
- Temporary People

AN ORGANIZATION THAT YOU CAN TRUST

We understand our clients need to trust that their partners are fully compliant. Rest assured that all of our staff have completed a thorough pre-employment screening process that includes:

- Full CV on file.
- Photographic ID
- Right to work in the UK
- DBS clearance for working with adults and/or children.
- 2 Professional References or 1 Professional and 2 Personal References.
- Proof of Registration with Regulatory Bodies (eg. GMC) where applicable.
- Mandatory training.

OUR MISSION

We partner with healthcare providers where we see the opportunity to add value to you. Be that through our dedicated staff or our healthcare software partners. Our candidates are provided with continuous support and guidance through training and professional development. Quality Assurance is key to the continuous delivery of a superior service. We ask all clients to provide feedback on the workers we supply and on the services deliver and we monitor all feedback to make sure that any issues raised are resolved effectively.
